

ABOUT US

The Company **KALUAN** s.r.l. has been working in the field specializing in the production of ceramic decorations and tables decorated with tiles of its production. **KALUAN** tiles decorated with their colors and designs are the result of long and painstaking research and careful study of materials on the track antique decor: Sicilian, Neapolitan, Spanish, Arabic and Portuguese currently in the major museums of ceramics. Besides its decorations and decorated the tables **KALUAN** offers a variety of home accessories made from unique handmade products, made of various materials: ceramic, laminate work overhanging objects, painted wood, wrought iron, etc

These objects can be easily inserted into a new or existing furniture and can be viewed in the section of the site " BAZAR KALUAN"

Because a table **KALUAN**.

The table has always been an object for man aggregating. There is a house without a table and it is always placed in the most vital of the house. Gather around him: friends, family and guests. "Sitting around a table" means to discuss and reach an agreement, "eating at the same table" means to stay together. A nice and solid table so it can facilitate socialization. **KALUAN** a table decoration based on the common choice for guests the personality of the owner giving them a visual sensation, gives life and color to the choreography of which is a part as well as being extremely useful.

Not to mention affordability **KALUAN** making PRODUCTS finally purchased so far considered only for the niche market of high prices, not because they are not appreciated.

The tables decorated **KALUAN** have a base in wood or wrought iron dismantled, the dismantling is valuable because despite their size and strength they can easily be transported (a table comes apart in the elevator). After years of experimentation with materials to use, glazes, firing cycles, the decorations, the **KALUAN** produces a range using precious and refractory clay, decorating tables with wooden or wrought iron furnishings for gardens, pools, kitchens, lounges, meeting rooms, hallways hotels, squares, city centers and all the places where the imagination can imagine an elegant furnishings and solid art.

The production is supervised in every detail, the tables **KALUAN** tolerate salt, water, ice, and all weather conditions, including low temperatures. In addition, the impact resistance of ceramics and the scratching is significant and can be used for any household cleaning product. The company follows up **KALUAN** indication of the customer and their project of any size table, using the available patterns (these patterns are reflected in the CATALOG DECORATIONS KALUAN this site), creating customized solutions that will make sure your spaces unique. High quality tables are **KALUAN** a piece of furniture ideal for home-style classic, rustic and modern. Their craftsmanship includes a special protective coating that allows you to use even outdoors in colder climates, with temperatures up to 23 degrees below zero.

TABLE WITH REMOVABLE BASE (IRON FULL)

KALUAN tables with wrought iron base (solid iron) are particularly suitable for outdoor use, have excellent resistance to corrosion and tamper with the weather. They are also resistant to scratches, resistant to stains, acids and freezing, and require no maintenance. The dismantling of the base despite the majesty of the table for easy transport to the 'possible location in other environments.

WOOD TABLES WITH REMOVABLE BASE

The tables KALUAN born with a wooden base for internal and combination wood-ceramic harmony that gives them a complete interior make it a warm and welcoming. The removable base makes it easier to transport and possible transfer to other environments.

Tables for Villas, Garden, Terrace, Kitchen, Hotel, Bar and Restaurants.
Very high quality and beauty, unique and elegant.

Unbeatable in the relationship KALUAN MONEY direct sales via the Internet can bring the products directly to consumers at wholesale prices jumping an unnecessary chain that serves only to increase prices.
